

JOB OPENING – Electronic Security IT Technician – Des Moines

Walsh Door & Security is seeking an Electronic Security IT Technician. If you have a desire to work for a 150+ year old Midwest-based, family-owned company, enjoy working in a fast-paced environment, and are a person who takes pride in doing quality work, this is a great opportunity for you! Walsh Door & Security is a growing company with 115+ employees and three locations – Des Moines, Iowa City and Kansas City. Our Electronic Security division began with two employees in 2007. Today, Walsh has 18+ of our 115+ employees dedicated to electronic security. Walsh Door & Security is one of the fastest growing security integrators in the Midwest. This is a full-time, added position to our team with potential for advancement.

Job Description:

- Administration of database systems. This includes responsibility for the integrity of the data and the efficiency and performance of the system.
- Administration of network infrastructure such as switches, routers and cabling. Diagnose problems with the network infrastructure or with the behavior of network-attached computers.
- Administration of security devices such as firewalls as well as consulting on general security measures. Monitor client sites to observe potential areas of improvement by identifying high risk areas and recommend solutions for reducing risk.
- Maintains all servers, client machines and software. Includes upgrades and backups as needed.
- Performs routine maintenance including changing backup tapes or replacing failed drives in a redundant array of independent disks (RAID).
- Assist with programming IP-based electronic access control and video integration systems.
- Assist with design architecture and layout of electronic access control and video integration systems.
- Provide first line technical support of mission critical business processes for customers. Respond to customer calls by providing a high level of technical expertise and professionalism.
- Maintain proper documentation of all IT systems and related architecture.
- The successful candidate will have the desire to take on more responsibility with experience.

Job Requirements:

- Prefer candidate with four-year degree in Computer Science, MIS (Management Information Systems), Computer Engineer, or Software Engineer.
- Ideal candidate will have experience in Information Technology Networking.
- Must have clean background and driver's license.
- Pre-employment fit test, drug screening, and background check are required.
- Typical schedule is Monday – Friday from 8:00 am – 5:00 pm. Hours WILL VARY depending on workload and may require 50 + hours per week during peak times.
- Some travel and overnight stay are required.

Benefits:

- Health Insurance – Highly competitive, quality health insurance for single- or family-coverage options available with full-time positions. Company pays majority of premium.
- 401k Savings Plan – Company contributes up to 4% of wages.
- Life Insurance – 100% company paid \$50,000 life insurance policy.
- Short Term Disability – 100% company paid policy.
